InterMat2012: World Largest Construction Machinery Fair

CASE CONSTRUCTION Shows Innovative Products in Construction Industry

CASE Construction created a stir at the recently concluded InterMat2012, Paris by its show of new, innovative and trend setting construction machinery. CASE Distributors from 40 countries were given a detailed briefing on the new products and strategies at the CASE Center at the Monthyon, on the east of Paris a day prior to the InterMat 2012 and got a chance to interact with senior CASE executives for intimate discussions.

Imtiaz Rastgar, Chairman Rastgar Group and Maqsood Zulfqar, CEO Rastgar & Co visited InterMat 2012, Paris France to show their resolve and commitment towards its principal of CASE brand for dedicated efforts, energies and resources for marketing and promotion of CASE product in

InterMat 2012 Paris: (L-R) Matteo Calo (Director CE Product Marketing), Carlo Alberto Sisto (Sr. Director Trade and Structured Finance), Maqsood Zulfqar, Mario Gasparri (President CNH Construction Equipment), Fabrizio Cepollina (Vice President CNH International) and Imtiaz Rastgar

Pakistan with Rastgar own sale, service and support policy.

Mario Gasparri, Chairman of CNH Construction sees InterMat an important event. According to him, it is an excellent opportunity to take the pulse of construction industry, because it attracts an audience

from all over the world. This is a chance for us to demonstrate to our customers what our partnerships with Iveco and FPT mean for them, and how pioneering we are in terms of low-emission engines, in both road and construction applications, especially with SCR technologies.

Textile Asia 2012

Big Success for Rastgar & Co and CompAir

The Event Provided an Effective Display of Rastgar & Co High Specialisation in Providing High Quality, Affordable Compressed Air.

Visitors through Rastgar Stand at the Fair

CompAir and Rastgar were prominent at the Fair as the only specialist company in the field of compressed air. With Rastgar & Co's wide offering of expertise, service, compressor types, energy recovery and ready availability of spares, CompAir continues to be the top selling compressor brand in Pakistan.

On hand at the Rastgar stand were three important people for the Pakistan Market, David Fenwick, Area Sales Manager James Cutting, Area Service Manager, and Chris Goldworthy, Marketing and Sales Manager for Middle East. These were in addition to Rastgar & Co's own Sales and Service Team, who attended to Rastgar's customers and trade visitors. With over 1,500 industrial

installations to its credit, Rastgar & Co was able to welcome a large number of visitors to its stand.

Rastgar understand the importance of compressed air for the quality and cost of

cheaper to maintain than Atlas Copco's ZR Series, supplying similar air.

The International Textile & Garment Machinery Show at **Karachi Expo Center** resulted in broadening cooperation between CompAir and the customer base through Rastgar & Co compressed air services in Pakistan. CompAir L series oil free compressors along with 6 year extended warranty attracted machinery builders who were seriously interested in offering CompAir compressor as packages with their machinery.

Pakistan has the highest production of cotton this year for 14.85 Million bales and the production is expected to continue increasing in coming years.

country forward. Ihasan Ullah Khan, CEO, Pakistan Stone Development Company (PASDEC) stressed on the importance of decisions based on complete information

while purchasing truck fleet for marble industry.

Murtaza Zaidi, Honorary Executive Director, TiE Islamabad Chapter said that the training program was a new initiative and it will be continue in future so that the local entrepreneurs could be provided the latest skills.

Participants were awarded certificates at the conclusion. It may be emphasized that The Indus Entrepreneurs (TiE) is working to bring much needed self –employment and commercial skills to university graduates and young businessmen of the city.

IVECO ASTRA

The Off Road Truck For Extreme Conditions Introduced in Pakistan

Iveco Astra Represents a Milestone In The History Of Transport in Quarrying, Mining, Marble etc.

Sebastian Lardone Export Sales Area Manager for Iveco ASTRA introduced modern technology of ASTRA during seminars to leading industrial groups in Pakistan. Companies from construction, oil & Gas, Cement, Marble, Mining and refinery sector expressed great interest in Iveco ASTRA off-road trucks. Rastgar & Co understood the need of off-road trucks for growing sectors of Mining and Construction industries in Pakistan and joined hand with Iveco ASTRA for customized solution of trucking and transportation. Iveco ASTRA optimized vehicles are intended for heavy duty use, ASTRA trucks are capable of crossing the most

inaccessible terrain and of working in the most extreme climatic conditions. In fact, neither the tracks of Africa nor the ice of Siberia has been able to stop ASTRA vehicles, working with safety and high productivity, are an affirmation of the success of Italian technology all over the world. Nature is always coming up with new challenges. ASTRA has taken them

Nature is always coming up with new challenges. ASTRA has taken them on all over the world

on all over the world. While introducing Iveco ASTRA in Pakistan, Sebastian Lardone challenged the Pakistan harsh terrains against the productivity of Italian trucks and

guaranteed safe operation for Mining, construction, Oil & Gas and Refineries for safety, easy mobility and quick transportation on off road tough and rugged conditions.

ASTRA founded in 1946 owned by IVECO since 1986. With its vast experience and its wide and complete range of heavy-duty civilian vehicles and military products, ASTRA today represents an important page in history of the quarry and mining transport sector and this most difficult and demanding work.
