 **CompAir IN PAKISTAN**

Plans Greater Support For Sales , Service & Distribution

(Left to Right) Maqsood Zulfqar CEO Rastgar & Co, Colin Fountain MD Gardner Denver FZE, Imtiaz Rastgar Chairman Rastgar Group, Dave Fenwick Regional Manager CompAir FZE

Gardner Denver, the giant multinational leader of the compressor and pump is committed to continue to support sales and service of its CompAir Brand Air Compressors in Pakistan, stated Colin Fountain, Managing Director, Gardner

Denver FZE, while visiting Karachi on February 01, 2012. Gardner Denver, founded in 1859, is a global manufacturer of industrial compressors, blowers, pumps, loading arms and fuel systems. CompAir is the latest addition to the Gardner Denver portfolio and

its highly successful a recent Brand and Product line is being independently promoted by Gardner Denver with the association of its local Distributor, Rastgar & Co who have excelled in customer service and helped their industrial customers with

## NANO ADDS VALUE TO TEXTILES

### Rastgar Leads Way To Nano Spinning

Elmarco's unique Nanospider™ technology is designed for ease of use, scalability, modularity and flexibility in producing the highest quality nanofibers

Elmarco Nanospider™ equipment (NS equipment) is designed for the production of all sorts of organic and inorganic nanofibers. The product range goes from electro spinning equipment for laboratories to enable the development process, over production lines for low to moderate production volumes, to industrial scale high volume production. It uses on all levels the same Nanospider™ electrospinning process allowing an easy up-scaling from

laboratory results to production.

The machines are designed for:

- Ease of use    · Flexibility
- Modularity    · Scalability

Recently Kaz Nomoto, CEO of ELAMRICO Japan, was a speaker at the International Workshop on Industrial Applications of

Nano Technology, organised by COMSTECH at Islamabad.

ELMARCO is now cooperating with National Textile University, Faisalabad, NUST Islamabad and NED University

Karachi for helping with research on applications of Nano spinning and expects that university-industry linkage would be created in this field for having a large economic impact on Pakistan's Textile Sector.

## ©hydrovane WORKSHOP ON SALES ORIENTATION

### Innovative Compressed Air Solutions for Fountains, Parks, FunFair, Paint Shops

Hydrovane Orientation Seminar was held for consultants and business men

Participants of Hydrovane Seminar

for introduction to latest concepts in use of vane compressors in a variety of fields like; Automotive & Garage, Construction, Energy (Including Gas), Entertainment & Leisure, Farm & Agriculture, Food & Beverage, Manufacturing, Marine, Medical & Dental, Military, Pharmaceutical, Snow, Special Applications (within any market sector) Non-Standard Products (NSP), Transit, Utility Services.

## RASTGAR & CO SHOWCASES CompAir COMPRESSORS AT PAPS 2011

### Auto OEMs and Vendors Depend on CompAir Compressors to Power Their Plants

All OEMs and many vendors use CompAir Air Compressors on their factory floors and form a very satisfied customer group for Rastgar & Co who take pride in supporting the Auto Industry with excellent sales, service and spares.

Overview of PAPS Show 2011

The Pakistan Association of Automotive

Parts & Accessories Manufacturer (PAAPAM) is the representative body of the Pakistan Auto parts industry. PAAPAM's active involvement in trade promotion, technology up-gradation, quality enhancement and collection and dissemination of information has made it a vital catalyst for this industry's development. The Association's other activities include participation in international trade fairs, sending trade delegation overseas and bringing out publication on various subject related to the automotive industry.

PAAPAM organized PAPS2011 Auto Parts Show of at Lahore Expo Center supported by EDB, CBI the Netherlands, SMEDA and

## RASTGAR DELIVER ON-SITE TRAINING ON CompAir PORTABLES

### PASDEC is Delighted with Quality of Support & Service from Rastgar & Co.

The dimension stone sector is currently expanding all over the world. The use of natural stone has significantly increased in spite of induction of several competitive construction materials in the market. Pakistan's Marble and granite sector is underlined by unempirical mining technology and high wastage.

According to the vision developed by strategic working group for the marble and granite sector, the potential exists to decrease wastage from current 85% to 75% by 2010, thereby increasing production from 100 million sq ft in 2004 to about 247 million sq ft by 2015. Subsequently, resulting increase in exports from \$23 million to \$ 2.4 billion in the same period. Furthermore, revenue generation would

increase from Rs 2.4 billion to Rs161.6 billion which would go a long way in socio-economic development of the remote regions of Pakistan.

PASDEC's vision is "to make Pakistan globally competitive and socially responsible player of the international dimensional stone industry". PASDEC is moving ahead on fast track to achieve assigned target for development of marble and granite sector of Pakistan. PASDEC short term goal is to develop quarrying sector of Pakistan to reduce quarrying wastage from 85% to 45%.

Rastgar & Co is playing its crucial role in the development of stone industry in Pakistan by supplying world best portable compressors and its services in the far long area of FATA. Rastgar & Co conducted training session for PASDEC engineers in FATA and taught best practices for utilizing compressors practically and theoretically.

## EXCAVATORS START WORKING IN MARBLE QUARRIES IN FATA

### Users Delighted by Quality of Machines, Ease of Operation and On-Site Training by Rastgar & Co.

A dedicated model for mass excavation which provides outstanding breakout force performance, with a special heavy duty attachment and optimized kinematics the 470B ME works with a

bucket 60% larger than the standard 470B. This makes the 470B ME the ideal combination when loading trucks combining industry leading speed, productivity and efficiency.

You can count on Case and Rastgar & Co for full-service solutions-productive

equipment, expert advice, flexible financing, genuine CASE parts and fast service. We're here to provide you with the ultimate ownership experience. Case and Rastgar & Co are here for you, not only when you buy the machine, but also after you put 1,000 or 10,000 hours on it.

## NINO RAMIZ DELIVERS PRODUCT TRAINING TO SALES TEAM

### UltraFilter Product Improvements and Innovations Highlighted.

Training of Staff as well as customer is a priority with Rastgar & Co. Such on going training events ensure market leadership for Rastgar & Co as well as the Brands it promotes.

Nino Ramiz, the German Industry veteran was at hand in Karachi. He had come to deliver product training on latest products and innovations on the Ultra Filter range of Dryers; Ultra.pure fridge dryer, Ultra.dry compact the heatless- adsorption dryer, Ultra.dry heat regenerated adsorption dryer, Ultra.drain condensate drains.
